

FoxGirl.com & \$FOXGIRL Token Whitepaper

FoxGirl Inc. October 2021

hello@foxgirl.com www.foxgirl.com

Overview

FoxGirl's primary aim is to aid crypto investors in identifying new and upcoming projects, build a linkedIn for token devs with token launch reputation scores, and build massive utility for holders and FoxGirl users. Members can connect their wallet to the platform to unlock further functionalities while holding our very own \$FOXGIRL token.

FoxGirl is establishing itself as crypto's token so artwork and NFTs will be a big part of our platform. With a unique twist to the usual use of art in crypto, users will be able to follow FoxGirl on her adventures with other crypto tokens and see our FoxGirl grow to become loved by the entire world.

Platform

Holders of \$FOXGIRL Token can unlock powerful features on the FoxGirl.com platform including expanded alert options, expanded price alerts, increased voting power, mod privileges, increased position options, additional search filters, earn to use on Foxgirl.com, marketing perks for devs, and much more!

With FoxGirl.com, you can set alerts for all the upcoming token launches, follow verified token devs, create watchlists, browse all crypto charts, set price alerts, and rate the success of past launches to boost a token dev's reputation score.

Token

Launched on Sept 30, 2021, \$FOXGIRL was created on the Binance Smart Chain.

Tax: 10% on Buy/Sell

Allocation: Marketing/Dev/Team

Initial Liquidity: \$15,000 (~ 35 BNB)

Slippage: 11-12%

Wallet to Wallet: No Tax!

Token Features

FoxGirl aims to build unique utility and features for crypto in a way never done before. Our platform launched with a revolutionary coin listing system that allows users to browse crypto tokens in the safest way possible. Users can filter tokens by various options to limit risk to a point that a rugpull is virtually impossible. In addition, they can also review any token dev's history of launches on the platform. The functions allow users to filter through options such as reputation scores, verification status, number of previous launches and their success rates, photo verification, and doxxed video verifications. This gives investors the long sought after feeling of safety when investing in an upcoming token launch.

Tokens Utility

FoxGirl users can set alerts for their favorite tokens listed on the platform and go about their day knowing they will receive an alert before the token has launched. This helps them be ready to invest and stay ahead of everyone not privy to the knowledge of FoxGirl. FOXGIRL token holders will receive expanded alert options such as browser, telegram, SMS, and push notifications along with the capability of adjusting the alert time between 1 and 24 hours before launch. Furthermore, members can create watchlists, upload tokens, claim tokens they own as developers, review verifications of token developers, review developer reputation scores, and upvote/downvote the launch of any token.

Dev Feature

FoxGirl will be known as the “LinkedIn for token developers”. In that spirit, it will allow devs to build a trusted profile with all their previous launches, completed verification methods, and social media accounts. Additionally, they can add a detailed bio about their history, skills, and experience in the world of crypto. For the first time ever, FoxGirl members will be able to browse token developers and do it effectively with advanced filters that give them specific and targeted results and increase the quality of the results found.

FoxGirl Charts

FoxGirl Charts allows users to browse all ETH and BSC tokens currently in existence. With an intuitive design, our charts will be the most user friendly charts available with clear and easy access to all the handy features a trader needs. Premium FOXGIRL holders gain access to price alerts for any ETH/BSC tokens by email, browser, SMS, telegram, and push notifications. Beyond that, holders gain the privilege of adding unlimited tokens to their “favorites” list, unlimited trade positions, tracking functions to track your wallet history on any chart, adding custom notes to any token, and much more packaged into an easy to use yet powerful interface.

Artwork

FoxGirl is highly visual focused so we believe that one of the best ways to grow is with beautiful artwork, gifs, videos, memes, comics and more. With our artwork feature we will allow users to upload their own FoxGirl content and receive full credit with do-follow backlinks to any link they choose. Artwork will be easily browsable with an intuitive blog-style layout with advanced filters, making it easy for our community to enjoy all the FoxGirl content. This will make it easy to share the content which in turn helps the world gain further awareness of FoxGirl.

Platform Development

FoxGirl will build utilities never seen before. The utilities include but are not limited to: useful databases, improvements upon features of popular products, development of bots to aid crypto traders in their everyday routines, and so much more. Premium FoxGirl holders will have access to so much utility that #HODLING is the only sane option.

With multiple streams of revenue being built into our platform, FoxGirl should give investors great confidence in its ability to continue long term growth of token value, and as an established company, Regardless of bull or bear markets. FoxGirl is setting itself up as a critical part of the crypto world for crypto investors and crypto developers. We are extremely excited for the future of FoxGirl and we hope you are too!

Upcoming functionalities to the FoxGirl Platform

Open Advertising Services

FoxGirl will allow tokens to promote their projects in banner ads, promoted spots, and sticky listings. We'll also add a reward functionality for users purchasing other tokens paid out in \$FOXGIRL tokens!

Earn FOXGIRL Using FoxGirl.com

\$FOXGIRL holders will be able to earn more \$FOXGIRL simply by using the platform, sharing reviews and upvoting projects, investing in tokens listed on our platform, and more.

Utility Bots

FoxGirl will build some useful automation bots for Telegram. Some will require \$FOXGIRL tokens to access and some will be freebies.

Announce FoxGirl's Official Pet

Who's it gonna be, you wonder? You'll have to wait to find out. You already know and love him! He will bring some neat utility to FoxGirl, as well.

FoxGirl Moonshots

A constantly updating, Reddit style news feed of any tokens with locked liquidity that require a payment to move the token to the top of the ever-updating Roulette.

Token Launch Pad

A launch pad like it has never been done before, featuring rug-proof launches. Stay tuned for later updates!

FoxGirl App

As we progress through our roadmap, we will launch the FoxGirl app that will allow FoxGirl holders to set push notifications for both upcoming launches and price alerts. Eventually we will convert the entire platform's functionalities to an app for both Apple and Android.

Our whitepaper will be updated frequently, as many features we will be adding are currently top secret and do not exist yet in the world of crypto!

[Join our Telegram](#) group where you will receive notifications of our updated whitepaper, roadmap, and other news!
